MANAGEMENT DISCUSSION & ANALYSIS REPORT

The management of your Company is pleased to present the discussions and analysis on the industry structure, developments, future outlook and operating and financial performance.

i INDUSTRY STRUCTURE AND DEVELOPMENT

a) Industry Scenario:

The huge gap in demand and supply of edible oils in India continued to be so during the year. The per capita consumption of vegetable oil is relatively low in India leaving a scope for market expansion consistent with high disposal income in future. Keeping in view the rising input costs on account of imports, various measures are being taken by the Government to step up the domestic oil seed production and moderate import duties with a view to ensure adequate availability and price stability, taking into account the equitable view towards various stakeholders such as domestic farmers, industry, consumers etc. Yet a lot is to be done at strategic level to make the country more independent on production of edible oils.

b) Industry outlook:

As a result of bumper production of ground nuts and soya during the current financial year 2016-17 domestic production has been increased and imports have been slightly reduced. The industry is in the process of consolidation with the large domestic and multinational entities having strong business capabilities, efficiencies in logistics, operations in strategic locations and strong consumer focus and seeking opportunities to expand the growing market share.

c) Risks and Concerns:

Your company's business is exposed to price fluctuations on its major raw materials with bulk of them being agro based and subject to market price variations during the year. Prices of these commodities continue to be linked to both domestic and international prices, which depend on the various external factors like good monsoon in the country, import/exports, international crop size etc. The setting up of commodity exchange and introduction of commodity futures and other hedge strategies in the country has opened up reasonable opportunities for the industry to hedge and manage the impact of these price fluctuations.

d) Opportunities and Threats

Our Strength

We believe that the factors which contribute to our strength are our ability to adopt to the ever changing environment, maintaining continuous growth,

Factory: 671-678 Industrial Area Urla, Raipur (CG) 493221

For, Shree Rajiv Lochan Oil Exp. Ltd

creating new market opportunities efficient leadership qualities and maintaining good customer relationship.

Threats

Important factors that could make a difference to the company's operations include economic conditions affecting demands/supply and price conditions in the domestic markets in which the company operates; changes in the Government regulations, tax laws and other statutes and other incidental factors. Apart from the above, the company is facing an issue of renovation of its plant to be able to grab the opportunity.

e) Segment-wise or product wise performance

Due to unfavorable and poor condition of the plant, the operations of the Company has been continued to be closed during the current year too.

ii ANALYSIS & DISCUSSION OF FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

Due to unfavorable and poor condition of the plant, the operations of the Company has been continued to be closed during the current year too. However the management is considering various options available for re-starting of production work provided the same becomes feasible.

iii INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Monthly information system is backbone of our internal control system. Roles and responsibilities for all managerial positions have been clearly defined. All operating parameters are closely monitored and controlled. The management also regularly reviews the operational efficiencies, utilization of fiscal resources, and compliance with laws so as to ensure optimum utilization of resources and achieve better efficiencies.

iv MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/ INDUSTRIAL RELATIONS FRONT

The employees are basically its human resource assets. They have played significant role in growth of the Company and enabled Company to deliver superior performance during the year. The Company has initiated several steps for overall development, training and welfare of its human resource asset and progress is monitored on regular basis. Employee relations have continued to remain cordial during the year under review. However, since the operations have been closed, the management has kept the minimum bare staff required for the time being, keeping in view the fact that the strategic work of the company remains to be unaffected.

v CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis describing the company's objectives, projections, estimates, expectations may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could defer materially from those expressed or

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
